

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS

1. (Original) A wireless mobile phone comprising:
telephony means for wirelessly sending and receiving telephony signals;
audio means for generating non-telephony audio signals;
an input-output interface to facilitate removable attachment of a first headset to said wireless mobile phone, and output of telephony audio signals to said first headset, and/or input of audio signals to said wireless mobile phone;
an output interface to facilitate removable attachment of a second headset to said wireless mobile phone, and output of at least a selected one of telephony and non-telephony audio signals for said first headset; and
audio signal paths to couple said input-output interface and said output interface to said telephony means and said audio means in a manner, to allow said input-output interface to be singularly employed for said first headset, said output interface to be singularly employed for said second headset, and said input-output and output interfaces to be jointly employed for said first and second headsets where said first and second headsets being the same headset.
2. (Original) The wireless mobile phone of claim 1, wherein telephony means comprises a wireless telephony signal transceiver.
3. (Original) The wireless mobile phone of claim 1, wherein said audio means comprises radio means for receiving and rendering radio programming.
4. (Original) The wireless mobile phone of claim 1, wherein said audio means comprises a digital audio player.

5. (Original) The wireless mobile phone of claim 4, wherein said digital audio player comprises a MP3 player.
6. (Original) The wireless mobile phone of claim 1, wherein said input-output interface comprises an input-output port designed to accept a 2.5 mm input-output plug.
7. (Original) The wireless mobile phone of claim 1, wherein said output interface comprises an output port designed to accept an 1/8 inch audio plug.
8. (Original) The wireless mobile phone of claim 1, wherein said first headset is a telephony headset comprising a microphone and at least one earpiece receiver.
9. (Original) The wireless mobile phone of claim 1, wherein said second headset is an audio output only headset.
10. (Original) The wireless mobile phone of claim 1, wherein said first and second headsets the same headset, and said same headset comprises two complementary plugs to mate with said output interface and said input-output interface.
11. (Original) The wireless mobile phone of claim 1, wherein said wireless mobile phone is of a digital type.
12. (Previously Presented) A wireless mobile phone headset comprises
a first earpiece receiver;
a microphone; and
a connector having two plugs respectively coupled to said first earpiece receiver and said microphone to facilitate (a) removable attachment of the wireless mobile phone headset to a wireless mobile phone via two corresponding complementary interfaces of the wireless mobile phone, an input-output interface and an output interface, where telephony and non-telephony audio signals are outputted on both interfaces, and (b) transfer of telephony and

non-telephony audio signals from said wireless mobile phone to said first earpiece receiver via the output interface and the plug mating with the output interface, and transfer of audio inputs from said microphone to said wireless mobile phone via the input-output interface and the plug mating with the input-output interface.

13. (Original) The wireless mobile phone headset of claim 12, wherein the wireless mobile phone headset further comprises a second earpiece receiver, and said connector is further coupled to said second earpiece to facilitate transfer of at least a selected one of said telephony and non-telephony audio signals to said second earpiece receiver.

14. (Original) The wireless mobile phone headset of claim 12, wherein a first of said two plugs is an 1/8 inch audio plug.

15. (Original) The wireless mobile phone headset of claim 12, wherein a first of said two plugs is a 3-pin plug.

16. (Original) The wireless mobile phone headset of claim 12, wherein a first of said two plugs is a 2.5 mm input-output plug.

17. (Original) The wireless mobile phone headset of claim 12, wherein a first of said two plugs is a 4-pin plug.

18. (Original) The wireless mobile phone headset of claim 17, wherein said 4-pin plug comprises two input pins, and neither of said input pins are coupled to said first earpiece receiver.

19. (Original) The wireless mobile phone headset of claim 12, wherein said microphone further comprises a send/end button.
